SCHOOL BOARD

We submit the 20th annual report of schools for the year ending February 15, 1906.

Ten schools were maintained during spring and fall terms and eleven during the winter, making a total of 310 weeks, or 30 weeks for the year.

As we received no aid from the state this year our winter term was shorter than usual. We were sorry for this as it is the only term when advanced pupils can attend school to advantage.

As it seems probable that this state aid will not be coming our way hereafter it would be well to take the fact into consideration when raising school money for the ensuing year.

While our schools are not up to perfection, we feel that they will compare favorably with other towns spending the same amount of money.

We believe the teachers have done the best they could, especially mentioning those who have just closed the winter term with a successful public exhibition, which, by the way, we hope will hereafter become an annual affair.

Our teachers can and will do better work if parents will grasp the idea of their own responsibility to teachers and pupils and visit both oftener. Parents—when will you awake? If our schools and your children are not worthy of your care and interest what on earth is?

By the last enumeration we find the number children between the ages of 14 and 16 to be 38; between 8 and 14, 120; and from 5 to 8 43; a total of 201. With this number of scholars to be educated ought we not to

use every means in our power to raise the standard of our schools ever higher? How? By raising sufficient money to employ experienced teachers and to repair what schoolhouses we are to retain in the future so they will be more comfortable and less airy than at present. We shall never regret what we do for our children, or our neighbor's children, they are our future citizens who are to maintain our government in days to come. How important then that we do our work well.

F. A. CHESLEY,	}	Respectfully submitted, School Board.
